Professional Profile

Dedicated Operations Supervisor with a proven track record of 13 years in the dewatering industry and 7 years of experience in plants. Highly skilled in managing, coordinating, and optimizing day-to-day operations, ensuring the efficient removal of water from various applications. Adept at overseeing a team of professionals and machinery, with a keen focus on safety, quality, and cost-effectiveness. Possesses a deep understanding of dewatering processes and equipment, consistently delivering results that exceed expectations. Committed to continuous improvement and team development, fostering a culture of excellence and collaboration. A results-driven leader with a strong analytical mindset and a passion for ensuring the smooth and efficient operation of dewatering projects.

Work Experience

- Operations Supervisor, Hydroserv; Qatar (2020- Present)
- Supervisor, Hydroserv; Qatar (2014-2020)
- Supervisor, Astaldi-Ozcar JV; Oman (2013-2014)
- Supervisor, Hanjin Heavy Ind; Oman (2011-2013)

- Plants Foreman, Bahria town Islamabad Pakistan (2007-2008)
- Plant Operator/Foreman, Descon Engineering; Pakistan (2003-2007)

Roles & Responsibilities

- Team Leadership:
 - Supervise and lead a team of dewatering technicians and operators.
 - Assign tasks, set performance expectations, and provide guidance and support to team members.
- Process Management:
 - Oversee the daily dewatering operations, ensuring that they are executed according to established procedures and standards.

Roles & Responsibilities

- **Quality Assurance:**
 - Maintain a focus on quality control to ensure that dewatering processes meet required standards and customer specifications.
 - Implement quality assurance measures and conduct inspections to minimize errors and improve efficiency.
- **Safety Compliance:**
 - Enforce safety protocols and guidelines to maintain a safe work environment.
 - Conduct safety training for the team and address safety concerns and incidents promptly.
- **Equipment Maintenance:**
 - Coordinate routine maintenance and repairs of dewatering equipment to prevent downtime and ensure optimal performance.
 - Keep detailed records of equipment maintenance and repairs.
- **Project Coordination:**
 - Collaborate with project managers and engineers to align dewatering activities with project goals and timelines.
 - Communicate project requirements to the team and ensure they are met.
- **Documentation and Reporting:**
 - Maintain comprehensive records of dewatering processes, equipment maintenance, safety incidents, and project progress.
 - Generate reports to assess performance, identify areas for improvement, and track compliance.
- **Emergency Response:**
 - Develop and implement emergency response plans to handle unexpected incidents or issues during dewatering operations.
 - Ensure that the team is well-prepared to respond to emergencies effectively.
